BOVEX[®]

ABOUT AVIZAKTA ENTERPRISES

Avizakta Enterprises was established in 2012 with the goal of creating lighting products that balance design, technology, and long-term performance.

Over the years, the company has expanded into several specialized divisions. Each brand under Avizakta focuses on a specific area of the lighting industry, allowing us to deliver both creative and technical solutions to different market segments.

Our capabilities include:

- Decorative and architectural lighting
- Commercial and industrial lighting products
- Custom chandelier design and fabrication
- OEM lighting manufacturing for other brands
- Product research and technology development

With in-house design expertise and manufacturing support, Avizakta works closely with interior designers, architects, project developers, and lighting brands.

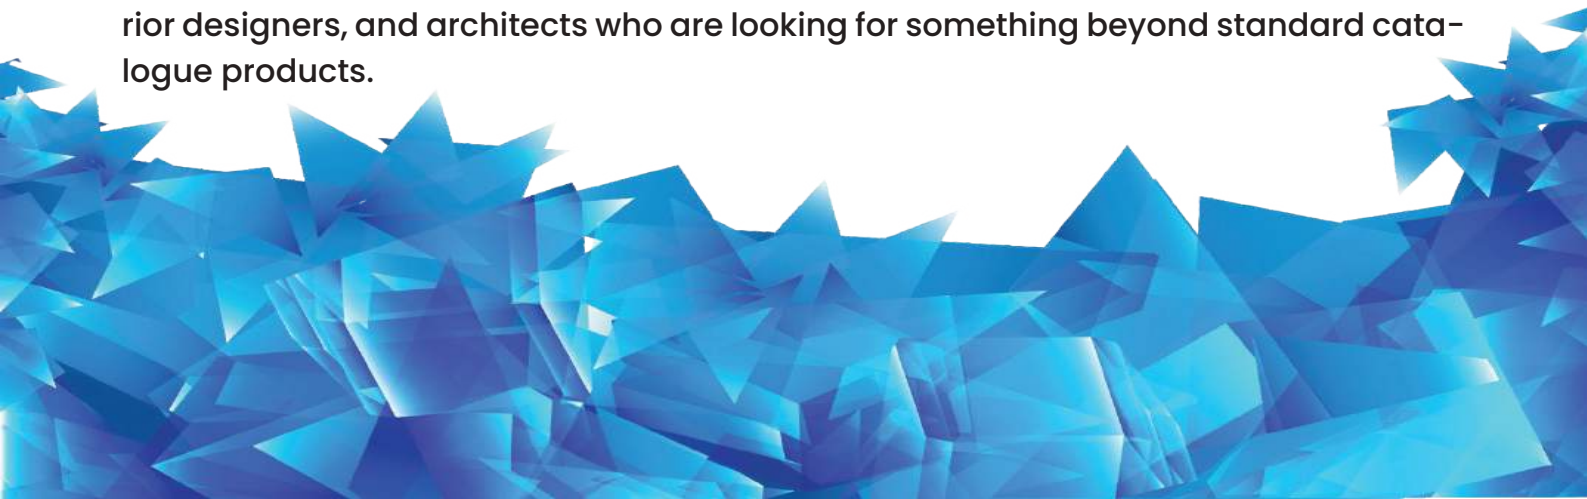

OUR BRANDS

Decobox – Custom Lighting & Home Décor

Decobox is the direct-to-customer division of Avizakta focused on custom lighting and decorative home solutions.

Through Decobox, we design and deliver unique lighting pieces including chandeliers, staircase lighting, double-height installations, and bespoke decorative fixtures tailored for villas and luxury interiors.

The brand was created to bring design-driven lighting directly to homeowners, interior designers, and architects who are looking for something beyond standard catalogue products.

Bovex – Commercial Lighting Solutions

Bovex is the commercial lighting brand under Avizakta Enterprises.

The brand focuses on functional, durable lighting solutions used in commercial environments such as offices, retail spaces, industrial facilities, and infrastructure projects.

The Bovex product range includes LED panel lights, flood lights, street lighting, and other performance-oriented lighting systems designed for reliability and efficiency.

OEM MANUFACTURING

Avizakta Enterprises also works as a **manufacturing partner for lighting brands and distributors.**

Through our OEM manufacturing services, we produce lighting fixtures that are supplied under other brand names. This allows companies to expand their product range while relying on our manufacturing support.

Our OEM capabilities include:

- Product assembly
- Light fitting production
- Custom product development
- Private labeling

We work with businesses that require consistent production quality and reliable supply.

TERMS & CONDITIONS

PRODUCT

- 1) Stocks are subject to availability.
- 2) Prices and specifications may change without intimation.
- 3) Goods once sold will not be taken back or exchanged.
- 4) Product images, dimension and color may vary from that shown in the catalogue.
- 5) GST extra as applicable.

WARRANTY

- 1) All the warranty products are covered under service warranty only, entire fitting will not be replaced.
- 2) Customer will get repaired product within 3 to 6 days.
- 3) SERVICE OR REPLACEMENT warranty applicable on both led and drivers.
- 4) Warranty does not cover physical damage of the product.
- 5) Warranty strictly void if the product comes in direct touch with water.
- 6) Company will not be responsible for any items missing/damaged at site or during transportation.
- 7) Warranty would be applicable for led used under standard operating conditions only, warranty void if the product gets damaged due to unstable / high power fluctuations (440v power).
